

Welcome to ReWorksSA

Our program launched in 2018 from a direct request by City Council to increase recycling opportunities in the local business community. In 2021, the program expanded to include other sustainability best practices. Today, **ReWorksSA** is a key climate initiative for the City of San Antonio.

ReWorksSA

Connecting Local Businesses to Sustainability Solutions that Work

Our Mission

ReWorksSA is deeply committed to being San Antonio's trusted resource for connecting local businesses to sustainability solutions in the workplace.

Sustainability and Your Business

Customers care and support businesses that have made sustainability a top priority. Today's top talent also selects companies based on corporate culture. We make sure you get recognized in the market for your commitment.

**SOLID WASTE
MANAGEMENT**

ReWorksSA

Connecting Local Businesses to Sustainability Solutions that Work

Our Focus

We consult with businesses in five keys areas: recycling, composting, water and energy conservation, transportation, and environmental policies.

The Process

Everything starts with a conversation. We listen to your goals and we help you find opportunities to start or improve sustainability practices and programs.

Recognition is One of Many Benefits

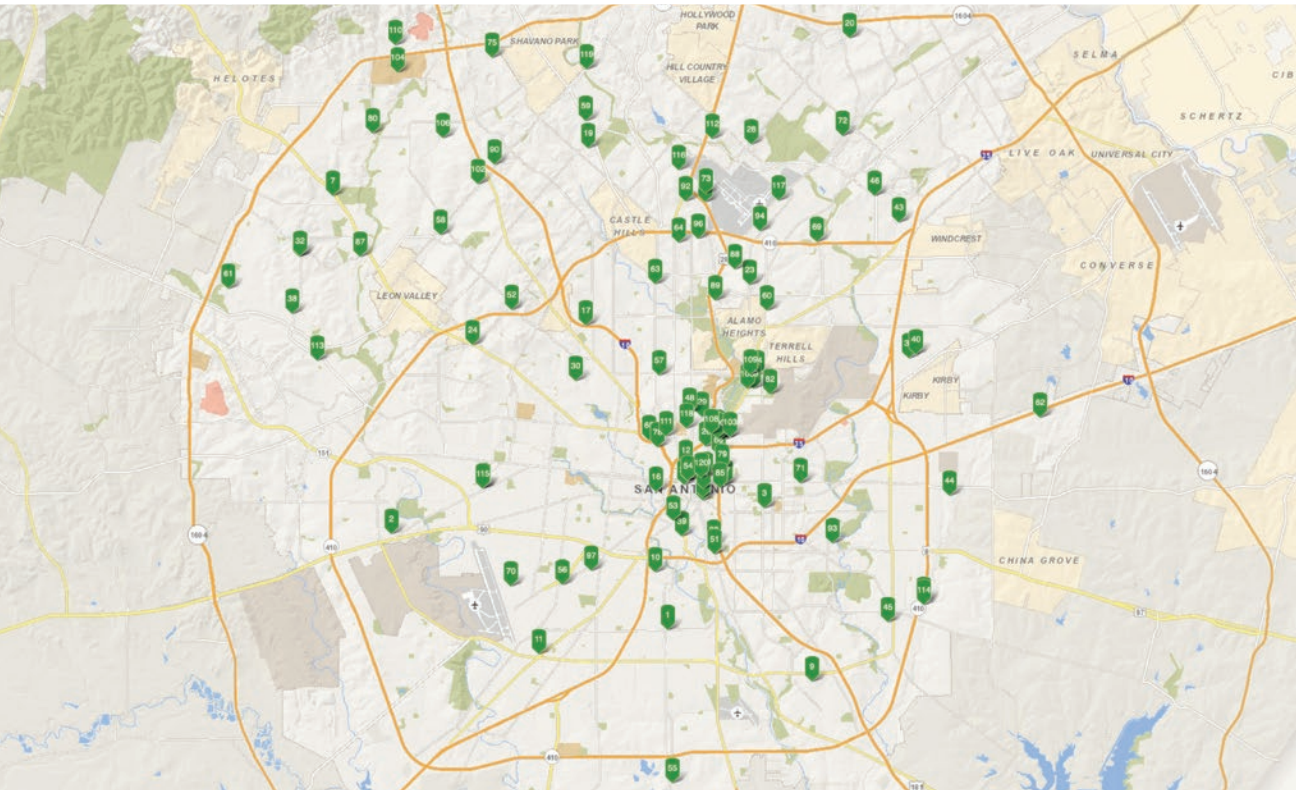

We certify businesses that successfully complete the program.

ReWorksSA@sanantonio.gov • 210-207-6550

We publish a directory of certified businesses

Getting your business on the map can be a competitive advantage.
