

What is ReWorksSA?

We are a program designed to help the local business community begin or improve sustainability best practices. We provide consultations, assessments, resources and even supplies, all at no cost. These services lead up to certification and that's when the benefits really begin.

ReWorksSA is a division of San Antonio's Solid Waste Management Department. It is also one of the City's Climate Initiatives as sponsored by the Office of Sustainability.

ReWorksSA

Connecting Local Businesses with Sustainable Solutions that Work

Get Certified - Get Recognized!

Becoming a partner in
San Antonio's sustainability
can help you succeed.

**SOLID WASTE
MANAGEMENT**

Certification Process

Certification comes with significant rewards and recognition is at the top of the list.

Basic steps:

- Create an account at ReWorksSA.org.
- Complete an application.
- Pass a site inspection.
- Start getting rewarded.

We will help you every step of the way because...*we want* you to succeed.

Certification Categories

Recycling. All levels of certification must include some points for recycling and composting best practices.

Energy Conservation. Points for renewable energy are available as well.

Water Conservation. There are many ways to reduce and reuse.

Transportation Policies. These can be directly tied to climate action through reducing fuel consumption and lowering emissions.

General Environmental Policies. Examples include purchasing green supplies or lowering the use of resources altogether.

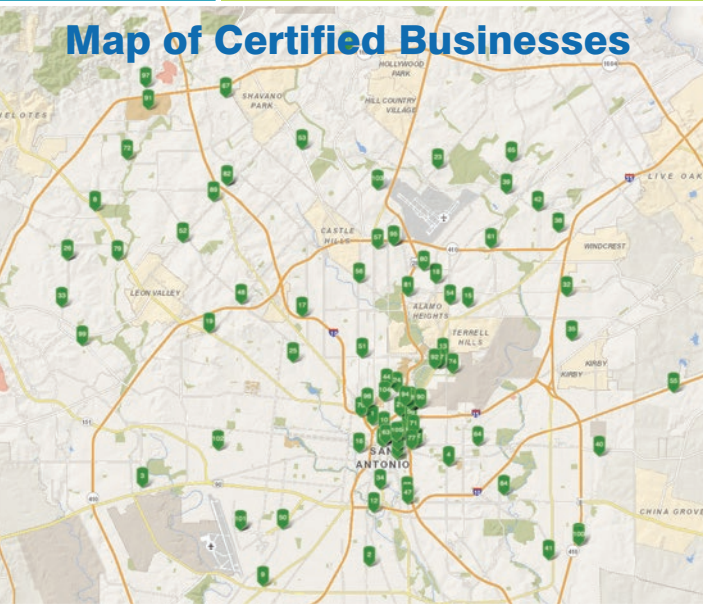

Bronze, Silver, Gold and the Pinnacle Award each have required levels of certification points. The Pinnacle Award was established in May 2021 and is one of the City's most prestigious accolades.

We make no-cost a great value

- Engaging ReWorksSA has no associated costs.
- Supplies can also be at no cost (based on application).
- There are rebates, incentives and other savings programs already available.
- Reduce overhead by lowering consumption.
- Don't overpay for recycling collection – use our right-sizing tool.
- Find resources, solutions and service providers at ReWorksSA.org.
- **Stretch your own advertising efforts. We market certified businesses!**

Map of Certified Businesses

What Can We Learn From You?

We have around 40 best practices for the above topics. But we also know that many businesses have found unique sustainability activities that fit their operations.

Share your great ideas. There are certification points available for implementing all types of programs, policies, projects and events.

People want to do business with organizations that have made San Antonio's sustainability a top priority.
